“ The future belongs to us because we have taken charge of it. We have the commiment, we have the resourcefulness, and we have the strength of our people to share the dream across the world to recycle water ”

TRUST US FOR EVERY DROP 

WORLD WIDE

With Over 300 + Successful project completion, GRAM is a world-class technology leading manufacturer & Construction of Environmental Engineering products and entire plants. A specialist in the field of Packaged Water Treatment System for Liquid / Waste Solids separations.

From identifying the requirements-adopting futuristic technology and creating value efficient solutions. GRAM visualizes itself as a supplier of made to measure solutions that accomplish our Customer's requirements in the optimum way.

ABOUT US

Our founder Mr. Rajamanickam Ganesan established the GRM group of companies in 2011 with their headquarters based in Coimbatore- the Manchester of Southern India. And with the academic knowledge of Chemical Engineering and Technology, a visionary in International Business Administration and Implementation of futuristic technologies in the field of water treatment and management systems especially in South India. GRAM has been started with the minimal support of infrastructure and small-scale workspaces, with the eminent efforts that leads to attain the rapid growth in a shorter span through strategically in the field of water treatment industries by the innovative thoughts and ideas to leave their foot prints in Southern part of India

OUR TEAM

- Research & Development Team
- Business Development Team
- Sales Team
- Proposal & Design Team
- Project Team
- Operations Team
- Procurement Team
- Accounts & Finance Team
- Legal Team

MISSION:

GRAM Commitment is to achieve these goals 2035: Zero waste , 50% less water use, 50% reduction in energy intensity , 50% more local renewable (50,000 mwh) 100% Design for the Environment-approved products. We are committed to continually working toward a sustainable society with integrity and in unity with our customers, partners , communities and the world around us.

VISION:

GRAM believe the future quality of human life dependent on both economic vitality and a healthy, sustainable natural environment. We put into place a set of environmental goals that included zero operational footprint , 100 percent green energy. We begins with these principles positive, transparency, products as living things, becoming greener together.

MAXIMUM QUALITY

Our reputation is based on the expertise and experience in a broad range of well-proven processes. We provide International technology based on water and waste water treatment for industrial, domestic sectors. We are one of the leading technology solution for designing, supplying and construction of varied sized plants across the world for the treatment of water, wastewater, sewage water and sludge.

INNOVATIVE

GRAM is an innovative water treatment company. GRAM's purpose is to help our customers to improve their water, energy and raw material efficiency by introducing

FACTS & FIGURES

2011

GRM ENVIROTECH SOLUTIONS was started by the founder G.Rajamanickam The company is based on water and waste water treatment with operation & maintenance of waste water treatment plants

2016

GRAM ENVOSOLUTIONS PVT. LTD a world-class environmental engineering company founded by G.Rajamanickam which provide unique solutions for all kind of renewable energy and environmental engineering works

> 100

Direct and indirect potential employees with years of experience and highest level of expertise

> 10

years of experience in providing remarkable contribution to the environment.

> 3 CRORE

Liters of water is being recycled by our Installation per day

> 7 CRORE

Liters of Hygiene drinking water delivered to hospitals, malls, apartment, schools, colleges, industries and farms per month

300

No. of Installations in STP, ETP, RO, WTP for hospitals, malls, apartment, schools, colleges, industries and farms.

7000

Square meter work space including factory, office, R&D division, godown etc..

> 250

Clients got benefited from our products and the plants are running smoothly.

> 10 CRORE

Average annual turn over

PROJECT & PRODUCTS

- Municipal water/ waste water treatment plant
- Municipal RO plant with vending machine
- Desalination Plant
- Biogas Plant
- STP (Sewage treatment plant)
- ETP (Effluent treatment plant)
- Reverse Osmosis Plant / Mineral Water Plant
- Softner Plant
- Demineralization Plant
- Ultra Filtration | Nano Filtration
- Operation and Maintanance

THE BLOOM BOX[®] STP AND ETP

GRAM is the first water treatment company in India to introduce BLOOM BOX the single system with all Pollution Control Measures. Gets BLOOM BOX will be the next revolution in waste water treatment market. Bloom box is the only solution to control the Water pollution, Air Pollution within the limits. There is no need of plant rooms and numerous civil tanks

We are
Introducing Packaged
Prefabricated Waste Water
Treatment Plant
